ADVANCE NOTICE OF TENDER CALL

Revelstoke-Slocan Electoral District

Highway 23: Reconstruction

THIS IS NOT A TENDER CALL but advance notice that it is planned to call tenders for the reconstruction of 87 kilometres of Highway 23, between Revelstoke Dam and Mica Village, in 13 highway contracts. It is essential that important features of the topography be inspected in a field trip before the heavy snows this winter.

Plans, specifications, and tender documents will not be available until the actual tender call is advertised. However, key plans, preliminary profiles, typical cross-sections, and a brief description of each grading project will be available at a pre-tender meeting in Revelstoke, B.C., at 2 p.m. on Monday, September 25, 1978. The location of the meeting can be obtained from the District Highways Manager at Revelstoke (telephone 837-5116).

Interested contractors are requested to advise the District Highways Manager before September 22 of the number of people attending. A key plan will be mailed out on request.

On Tuesday, September 26, 1978, there will be a bus tour for interested contractors to inspect the grading projects at

which time the Ministry will have staff available to assist the contractors to identify each highway project.

From September 27 through October 2, the contractors will be left to make their own detailed observations of the projects. At 9 a.m. on Tuesday, October 3, 1978, there will be a further meeting in Revelstoke, B.C., at which time the Ministry will answer pertinent questions of the interested contractors.

Any person who qualifies as an objector under section 13 (2) or (3) of the *Pollution Control Act* may, within 30 days of the date of application, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or where service is required, within 30 days of the serving of a copy of the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected. V2G 1R1, hereby applies for amendments, as described below, to Pollution Control Permit PA-2484, granted on January 22, 1974, to authorize the discharge of contaminants from a sawmill-planer-mill complex located at Williams Lake to the air.

To amend the permit by including a third wood-waste burner completely modified with underfire and overfire air-draft systems. The average rate of discharge is 25,000 SCFM (491 mol/s), 24 hours a day, five days a week (maximum, 54,000 SCFM, four hours a day, five days a week); and equivalent opacity is Ringelmann 20 per cent with a variance to 40 per cent for 10 per cent of the daily operating-time; particulate matter is 15 tons a square mile a month for the entire mill operation.
